## Education

**Pune Institute Of Computer Technology (PICT)**

2022 - 2026

B.E. in Information Technology

**SGPA: 8.42**

Relevant Courses: Data Structures And Algorithms, Object Oriented Programming, Computer Networks, Mathematics, Software Engineering, Database Management System

## Projects

**Expense tracker system** ([link](#))

**A web-based application to track and manage personal expenses.**

*NodeJS, HTML, CSS, JavaScript*

- User Interface: Designed a clean and intuitive UI for easy navigation and usability.
- Expense Management: Enabled users to add, edit, and delete expense entries.
- Data Visualization: Integrated dynamic charts and graphs to visualize spending patterns.
- Local Storage: Utilized local storage to save user data persistently across sessions.
- Responsive Design: Ensured compatibility with various devices through responsive design techniques.

**YouTube Video Summarizer** ([link](#))

**Automatically generate summaries of YouTube videos.**

*NodeJS, Websockets, Redis, Typescript, Prisma ORM*

- User Interface: Designed a user-friendly interface for inputting YouTube video links.
- Summary Generation: Implemented a mechanism to extract and summarize video content.
- API Integration: Integrated with YouTube API to fetch video data and metadata.
- Natural Language Processing: Applied basic NLP techniques to generate concise summaries.
- Responsive Design: Ensured the application is accessible and functional on various devices.

## Skills

**Languages:**

**C++, Python, Java, SQL**

**Technologies & Tools:**

**Html, css, java script, MySQL, , , , , ,**

## Achievements

**Active Member**

- Developed and demonstrated technical skills through coursework and projects, including [specific skills, programming languages, tools and technologies].
- Certified in Python programming, demonstrating strong proficiency and expertise in developing robust and efficient code.
